LANCOM Wall Mount

Professional wall-mounting bracket for LANCOM devices in classic CPE housing

The LANCOM Wall Mount ensures that LANCOM devices in classic CPE housings, including SD-WAN gateways and the LANCOM WLC-30, are professionally and securely fastened to the wall.

Integrated anti-theft protection

The LANCOM Wall Mount features a securing bar to fix the device and a padlock that prevents the mechanism from being opened. This allows you to mount your device even in easily accessible places because it is securely protected from theft.

Easy mounting

Supplied with the LANCOM Wall Mount are fastening materials, security bars, a padlock, and mounting instructions. Installation is quick and easy.

Unobtrusive installation

The two color variants "classic" and "white" allow unobtrusive installation depending on the color of your device.

Mounting on top-hat rails

The LANCOM Wall Mount (Rail) is a special variant that fixes LANCOM devices to top-hat rails and offers anti-theft protection. Here, too, you benefit from the professional and easy assembly of the LANCOM Wall Mount.
