VPN Client for 64-bit Windows XP from LANCOM Systems

04/08/2008

PRESS RELEASE 2008-159

VPN Client for 64-bit Windows XP from LANCOM Systems

Aachen, April 08, 2008 - Version 2.03 of the LANCOM Advanced VPN Client is LANCOM Systems' first VPN software client for the 64-bit version of Microsoft Windows XP. Additionally, user authentication by means of certificate key lengths of up to 4096 bits will in future increase security against hacker attacks.

This VPN client unites all of the familiar security and communications functions in a single user interface. These functions include the personal firewall, IPsec VPN, integration of UMTS and HSDPA cards, and wireless LAN support.

The LANCOM Advanced VPN Client is a universal communications program for use in any remote-access VPN situation. The software communicates with the VPN gateways from all of the renowned vendors, enabling it to be operated immediately in these environments. The LANCOM Advanced VPN Client supports not only Vista and Windows XP of the 32- and 64-bit versions, but also the 32-bit version of Windows 2000. This means that installations featuring different versions of the Windows operating systems can be set up with uniform configurations.

This latest version is available as a free update to all version 2.0 LANCOM Advanced VPN Clients and is ready for download from www.lancom.eu/avc. You will also find further detailed information on the LANCOM Advanced VPN Client here.

LANCOM Systems background

LANCOM Systems GmbH is a leading German manufacturer of reliable communications solutions for large enterprises and SMEs, public authorities and institutions. The company supplies products and software for IP-based VPN, VoIP and wireless networks, along with

support and services. These solutions are planned and developed specifically for the requirements of business customers. The company's focus is on Internet access products with integrated high-quality firewalls for ADSL, SDSL, ISDN and UMTS access and on comprehensive solutions for network connectivity and security with virtual private networks (VPN), wireless networks (wireless LAN) and public spots. LANCOM Systems GmbH is headquartered in Würselen near Aachen and has sales offices in Munich, London, Madrid, Bolzano, Amsterdam and Prague. Ralf Koenzen is the company's founder and Managing Director.
